

k. RSS Agriculture Farm

- In the year 2005, great thrust was given to land reclamation. About 8 acres of undulating and sandy land near NaglaTalfi (West of PoiyaGhat Road) was leveled by Satsangis which give good yields of mustard crop. Similarly, work began for reclaiming of 45 acres of land in KhaspurMustaquil at and near Chandmari-Ka-Tila and Genda-Ka-Tila. This land was made suitable for cultivation. The higher portion of KhaspurAhtмали land of the Sabha of over 153 Bighas was converted into regular fields and a Krishishala was established at the point of access to the Ahtмали land. Subsequently, another 27 acres of land was levelled near Chandmari-Ka-Tila, Krishishala, Tannery Fields and 25 acres at Sikandarpur.³
- The agriculture crop pattern has been organized to cater for the needs of the residents, Dayal-Bhandar and of Gaushala. The productions of major crops like rice, wheat, barley, mustard have increased steadily during the last 10 years.³
- Mustard and Taramera are used for oil extraction to meet the need of DayalBhandar and then also distributed to Dayalbagh residents. Oil cake- its bye product is supplied to RSS Gaushala.³
- In order to augment water availability for irrigation, an agreement is signed with Agra Municipal Corporation for supplying up to 14mld of water from their Sewage Treatment Plant near Jamuna Pump House.³
- Addition of Machines and Implements- New Thresher, New Tractors (6 nos.), one Rotavator, one Laser Guided Land Leveller, Power Berseem Cutters have been purchased in the last decade.³
- Khandsari Unit was established at Dairy Compound to manufacture Desi Sugar for supplying to Ilaichidana Unit and Molasses for use in Gaushala.
- A new grains and fertilizers implements godowns complex as been constructed in Dairy Compound.³
