

Education

Figure 3: View of REI Building, oldest educational building in Dayalbagh

The community runs a Nursery and Play centre, Primary schools, Secondary school for Boys & Girls, Day boarding school, and Intermediate colleges that are also open to other children residing in the neighbourhood. The community also has a secular University that is well known for its values based system of education in undergraduate and postgraduate programs in all major disciplines. The system of education aims to bring about physical, intellectual, emotional and ethical integration of an individual. Quality education is provided at nominal fees. Large open grounds are also available for the children and youth to play and regenerate their energy. The school has grown in course of time to become a Deemed University Dayalbagh educational institute with various facilities with facilities for research. The education system followed is unique and provides value based multi-disciplinary education with work experience. In addition, the colony has a diploma level technical college, a women's polytechnic, a school of languages, a tailoring school; a school of dress designing and interior decoration, a training center for Indian music, a leather working school. Different programs: distance education,

Cooperative MBA and Engineering programs are joint courses and Ph.D. supervision with IITs under MOUs. DEI has adopted a blended mode of teaching for its Distance Education program. In this mode, regular classes are held and all elements of continuous evaluation are implemented. Printed study material on IGNOU pattern is provided. Practical work is performed in fully equipped workshop. At present nine vocational and five degree level programs are offered at 81 distance education study center all over India and about 2500 students are enrolled in these courses.
